SPRING IS HERE!

By Ray Simon

The weather is changing and the diving is kicking in. We've had a wet winter which is good. I just wish we could direct the rain to fall during the week, not on the weekends when we want to hit the water. Lobster season is finished till next year. Once last change was put into the regs—remember this for the upcoming lobster season beginning 2 October 2010—16 March 2011...the tail must remain intact until the lobster is prepared for consumption. Stay tuned for any other changes that may occur in the regulations. Free fishing days for California are 4 July and 6 September, 2010. If you are looking for a productive lobster season please join us for our annual 3 day live aboard trip on the Conception out of Santa Barbara 21—23 October 2010. It's not too early to make your reservation.

If you do not want to wait until October to enjoy a 3 day live aboard, then please join us for our annual 3 day July trip from the 4th—6th of July. There's no diving in California like the diving at the Channel Islands out of Santa Barbara. Reserve your space soon!

DUI dry suit company, the world's largest and best manufacturer of dry suits (located locally—San Diego) is offering free neck and wrist zip seals for dry suits purchased through 31 July, 2010. This is a \$300 value and is available for any dry suit made by DUI. May is PADI's Dry Suit Specialty month. A great time to become certified in a dry suit. If purchasing one at this time is not in the cards, then complete our Dry Suit Specialty course so that you can rent from our large dry suit rental department.

We are offering the GE Money credit program at this time. One of the most popular programs that is available is their 6 months same as cash with a minimum monthly payment. A 12 month program is also available. Applying for the program takes about 3 minutes and is done at The Scuba Center, electronically. Approval does not obligate you to purchase, but gets you a GE Money card for future Scuba Center purchases.

This is a good time of the dive season to take a specialty that you've been putting off. Some of the more popular specialties are Nitrox, Wreck, Peak Performance Buoyancy, Night, Search and Recovery, Dry Suit, and more. If not an Advance diver, this would be a good time to be trained to dive deeper and learn to navigate underwater in addition to other elective dive. Some great news is that you can sign up for Advance, Nitrox, and Underwater Digital Photo on-line at our website www.escubacenter.com. Additionally if you know someone who wants to become certified, the academics can be done on-line at the same website. Just click E-Learning on our opening page. Once completed, you will receive a certificate of completion to present to your instructor so that the dives may be accomplished.

Stop by and say hello to Ray, Joey, and our latest associate, Kara.
