Stresses Be Gone By Ian Wimmer

Hello Divers!!

We are rolling into July and one of my favorite times of year. From Coronados to Laguna, from the Yukon to Catalina, I hear the conditions have been great! From the trips I've been taking I can tell you the reports are true. Recently I was out at the Coronados sitting on the bottom at about fifty-five feet picking through the sand and playing with shells like usual. I stop, slowly I turn my head upward. At an angle I view at a good seventy feet above me the dive boat, suspended in the "air." It dawns on me the scope of all that I can see. To the north there is a tall rocky cliff that towers above a small sandy valley. Moving south over the rocks and boulders the landscape turns to patches of sea grass and sand. Sea lions perform their aquatic acrobatics. If you are in to photography, this island is teeming with opportunities.

Some exciting news is that **The Scuba Center** has joined forces with **GE** to offer several payment plans with **0%** financing! Twelve month, six month and 90 days same as cash on nearly all of your purchases. Maybe you are ready to start diving warm and dry in one of our comfortable dry suits. Possibly a new camera has been on your wish list for far too long? We can help make it a reality. From tanks to dive lights its all within your grasp.

For those of you in need of a new computer, Oceanic is having a killer summer sales deal. Their Datamax Pro Plus 2 computer package with compass is \$175 off while their VT3 and Atom 2.0 are both \$200 off. If you've been eyeballing the DataMask like I know some of you have, Oceanic's \$300 off may be what you were looking for. The sale ends July 31st, so come down and give it a look.

It's dive season and the conditions are great. Remember a major part of being a responsible diver is having your gear inspected and serviced annually. When you hit the waters this season do it safely.

The fish are calling - get out there and have some fun!!
