## GOOD NEWS

By Ray Simon

I think that we have come to expect price increases at certain times of the year. For example we usually see most increases occur in January. Keeping that in mind, we experienced a price crease in educational materials for materials for all levels of scuba classes. However, we have managed to maintain prices on almost all of our courses to the 2008 levels. This is something you don't find often.

We are anticipating our April Cozumel package trip. We are visiting a resort that we've vacationed over many years. We've filled all of our contracted spaces for this trip, but have been told that there are more spaces available if desired. Our vacation dates are 4—11 April. We will participate in five days of 2 tank boat diving, a night boat dive and a boat dive at Cozumel's famous wreck. If you have the time and inclination to drift dive in 79 degree waters with eighty feet of viz...consider this trip. If you are looking for a trip closer to home (cold water) then please consider our 3 day live aboard out of Santa Barbara on the Conception dive boat. This is an 80 foot dedicated diver boat. We have chartered this class boat from 4 –6 July, 2010. Call to make your reservations while there is still space available. This is always as fun trip.

Lobster divers—season is at an end. Please remember to send in your lobster report cards!

We are using a new dive boat company out of San Diego. We now book with Waterhorse Charters. Their boat, the Humboldt, has had rave reviews from our instructors and our divers. Besides the good eats aboard, the captain and crew are very attentive, timely, and courteous. Contact us for your reservations.

With the main dive season upon us, please consider bringing your life support gear in for annual service. Our turnaround is generally one week. Consider battery changes on your dive computers at this time. Maintenance also includes the diver! If you haven't dove for several months then you also should have a "tune up." The Refresher Course is one of the most convenient and important scuba courses you can take. Please contact us and we'll set up your refresher course. Remember that it doesn't take long for motor skills to get rusty.

Dive often with **The Scuba Center** and dive safe!
