

AquaMarines

A little of this, a little of that...

By Ian Wimmer

Dive Club Meetings. Many have asked about the Aquamarines meetings and the vacancies in the clubs leadership. Maybe you have been a member but really haven't participated. Well, now is your time to shine! We are looking for new candidates to fill the President, Vice President, and Secretary positions in the club. It's a fun way to meet other divers! Help plan dive trips, lobster hunts, and BBQs! Its time to get out there and have some fun!

Live aboard a clear success. First off the Channel Island live aboard was a resounding success! We are hearing from those who went both on both trips this year that the conditions were BETTER in October than they were in July. Scuba Center divers took the plunge early in the morning on October 22nd. The diving didn't stop for three days as the boat bounded from place to place along picturesque Channel Islands. What more can you ask for from a mini vacation!

Lobster Season is going strong. As many of you know, lobster season kicked off last month! Reports are in, opening night was a success with many keeping tight-lipped about their favorite hunting grounds. As fun as catching the lobsters may be, the ultimate payoff (in my humble opinion) is eating them. www.lobster-recipes.com is currently my favorite spot to find delicious ways to prepare our quarry, but sometimes you have to strike out into unknown and make something that is all your own. A couple weeks ago Yuri and I invented Lobster Pirogues. A delicious blend of Ukrainian culture and the California spiny lobster.

Dive Computers. For anyone who hasn't yet heard, Aqua Lung is having a special on their dive computers! Cobra, Cobra 3, Vyper, D6, and D9 all \$150 off. Want to get that special someone something nice for the upcoming holiday season? Maybe you've been thinking about upgrading your old computer but was waiting for the right time. Well now is that time! This deal only lasts until December so it's best to take advantage of while you can.

Gear Service. Serviced gear is safe gear, and safe gear leads to happy divers. It's a good time of year to get your gear serviced. Take a look at when you bought your gear. Maintaining your warranty makes the difference in whether or not you need to pay for parts. Don't wait.
